601.0 STATEMENT OF PHILOSOPHY

601.1 - Board Belief Statement

It is the belief of the Board of Trustees of School District # 342 that it is the obligation of this School District to provide a thorough system of education so that each student has the opportunity to reach his/her fullest potential. The District-approved curriculum should form the basis of instruction for each student so that each graduate is sufficiently well educated that he/she can contribute to society, be productive in the workforce, and continue their education in pursuit of their career or interests. Schools will provide instruction and activities necessary for students to acquire the skills to enable them to be responsible citizens in their homes, schools, communities, state and nation. Where the District-approved curriculum is inadequate to meet the needs of students, it is incumbent upon teachers and administrators to focus on the problem and present satisfactory solutions to the Board.

602.0 CURRICULAR OBJECTIVES IN CULDESAC JOINT SCHOOL DISTRICT
No. 342

602.1 - Board Belief Statement

Believing that there should be common themes that cross all curricular areas, the Board of Trustees states that the following broad areas of emphasis should be evident in all relevant programs of this School District:

- **Communication Skills Emphasis.**
Communication skills enabling students to be responsible citizens of their homes, schools and communities will be emphasized throughout the curriculum. The teaching and demonstrating of effective communication skills will be exemplified throughout the K-12 system.

Idaho Code Section 33-1612

- **Age-Appropriate Classroom, School, and Community Activities.**
Each year, age-appropriate classroom, school and community activities will be provided to all students for the purpose of developing written and oral communication skills with individuals and groups. Good listening skills are a critical component of the communication process.

Idaho Code Section 33-1612

- **Technology Emphasis.**
Throughout the kindergarten through twelve (K-12) system, technology will be integral to curriculum, instruction and assessment. Technology moves communication to a new dimension. The kindergarten through twelve (K-12) system must lay the foundation for students to be able to participate comfortably in an increasingly technological society. Classroom activities will include instruction using multi-media, distance learning and other technologies. Students who have documented contact hours on individualized computer education or distance learning programs are eligible to be counted as part of the district's average daily attendance, whether the student is actually in the computer lab or distance learning center, or has logged on to the computer from another location.

Idaho Code Sections 33-1003C, 1612

- **Academic Skill Development.**
All students will be provided the opportunity to develop their academic skills (i.e., reading, language arts and communication, mathematics, science, social studies) and to develop the skills necessary for entering the workforce, including self-management skills (i.e., ability to plan, self-discipline, respect for authority, ongoing skill improvement), individual and teamwork skills (i.e., personal initiative, working with others), thinking/information skills (i.e., reasoning, problem solving, acquiring and using information) and vocational-technical skills based on the standards of the industry as approved by the State Board of Professional Technical Education.

Idaho Code Section 33-1612

- **Workforce Skill Development.**
Recognizing that students may or may not be active in the workforce, the Board of Trustees of School District # 342 believes all students should be provided the opportunity to become contributing community and family members. This instruction includes homemaking skills (i.e., nutrition, child development, resource management); balancing work and family responsibilities; and entrepreneurial skills.

Idaho Code Section 33-1612

- **Work-based Learning Experiences.**
Work-based learning experiences may be provided as part of the instruction in this school district. For students to receive credit, these experiences will include: training plans, training agreements, approved work sites, and supervision by appropriately certificated personnel. If work-based learning experiences are selected, they will be included in the Parent Approved Student Learning Plans. Instruction will be organized to facilitate a successful transition into the workforce and further education.

A student must meet all of the requirements identified in this section before the student will be eligible to graduate from an Idaho high school. The local school district or LEA may establish graduation requirements beyond the state minimum. (5-8-09)

01. Credit Requirements. The State minimum graduation requirement for all Idaho public high schools is forty-six (46) credits and must include twenty-nine (29) credits in core subjects as identified in Paragraphs 105.01.c. through 105.01.i. (3-12-14)

a. Credits. (Effective for all students who enter the ninth grade in the fall of 2010 or later.) One (1) credit shall equal sixty (60) hours of total instruction. School districts or LEA's may request a waiver from this provision by submitting a letter to the State Department of Education for approval, signed by the superintendent and chair of the board of trustees of the district or LEA. The waiver request shall provide information and documentation that substantiates the school district or LEA's reason for not requiring sixty (60) hours of total instruction per credit. (3-29-10)

b. Mastery. A student may also achieve credits by demonstrating mastery of a subject's content standards as defined and approved by the local school district or LEA. (3-29-10)

Each year of Language Arts shall consist of language study, composition, and literature and be aligned to the Idaho Content Standards for the appropriate grade level. For the purposes of this subsection, the last year of high school shall include the summer preceding the fall start of classes. Students who return to school during the summer or the following fall of the next year for less than a full schedule of courses due to failing to pass a course other than math are not required to retake a math course as long as they have earned six (6) credits of high school level mathematics. (3-12-14)

iii. Students who have completed six (6) credits of math prior to the fall of their last year of high school, including at least two (2) semesters of an Advanced Placement or dual credit calculus or higher level course, are exempt from taking math during their

604.7 - District Requirements for Graduation

The Board shall award a regular high school diploma to every student enrolled in the District who meets the requirements of graduation established by the District. The official transcript will indicate the specific courses taken and level of achievement.

The Board shall establish graduation requirements which, as a minimum, satisfy those established by the Board of Public Education (IDAPA 08.02.03.107). Generally, any change in graduation requirements promulgated by the Board will become effective for the next class to enter ninth grade. Exceptions to this general rule may be made where

it is determined by the Board that the proposed change in graduation requirements will not have a negative effect on students already in grades nine through twelve (9-12). The Board shall consider and vote on whether to approve graduation requirements as recommended by the Superintendent.

All students will show proficiency on the Idaho Standards Achievement Test (ISAT) as defined by State Board rules in order to graduate (IDAPA 08.02.03.105.02). An “eligible” student who does not attain at least a proficient score prior to graduation may appeal to this Board for relief from the ISAT proficiency requirement.

A student who possesses a disabling condition shall satisfy those competency requirements which are incorporated into the Individualized Education Program (IEP). Satisfactory completion of the objectives incorporated into the IEP shall serve as the basis for determining completion of a course.

A student may be denied participation in graduation ceremonies. Such exclusion shall be regarded as a school suspension. In such instances, the diploma will be awarded after the official ceremony has been held.

604.10 – K-3 Reading Intervention

The District strives to ensure that all students read at or above grade level by the end of third grade. In order to achieve this goal the District shall establish a reading intervention program, in addition to core reading instruction, that is aligned with Idaho State Board of Education's Comprehensive Literacy Plan. The District's reading intervention program will include research based literacy instructional practices, student engagement, and effective interventions.

Definition

Idaho has adopted the International Literacy Association definition of literacy. Literacy is defined as the ability to identify, understand, interpret, create, compute, and communicate using visual, audible, and digital materials across disciplines in any context.

Intervention Program

The District will provide a research based reading intervention program to all kindergarten through third grade students identified with a reading deficiency as determined by the statewide reading assessments.

The program will provide intensive development in phonemic awareness, phonics, fluency, vocabulary, text comprehension, and decoding intervention as applicable to the grade level.

The District will monitor the reading progress of each student's reading skills throughout the school year and adjust instruction according to student needs.

The program will provide a minimum of 60 hours of supplemental instruction for students in kindergarten through grade 3 who score below basic on the reading screening assessment and a minimum of 30 hours of supplemental instruction for students in kindergarten through grade 3 who score basic on the reading screening assessment.

Reading Improvement Plan

Any student in kindergarten through third grade who exhibits a deficiency in reading based upon the statewide assessment shall receive an individual reading improvement plan. Any student who has been identified as not proficient through a local literacy assessment may also be put on a reading improvement plan. The District shall notify parent(s)/guardian(s) as outlined below once the deficiency has been identified and request their participation in developing the plan.

The reading improvement plan shall be created by the teacher, principal, parent(s)/guardian(s), and other pertinent school personnel, including staff assigned library duties, if applicable, no later than 30 days after the identification of the reading deficiency. The plan will describe the reading intervention services the student will receive to remedy the reading deficit.

If, after a good faith effort, the District is unable to engage the parent(s)/guardian(s) in the development of the student's reading improvement plan within 15 days of notification, school personnel may move forward with the creation of the student's reading improvement plan without parental participation.

Students who are on a reading improvement plan and have been identified through the statewide assessment to be at grade level may be transitioned off of the reading improvement plan. The District shall notify the parent(s)/guardian(s) in advance of transitioning students off of their reading improvement plan.

Parental Notification

The parent(s)/guardian(s) of any student in kindergarten through third grade who exhibits a deficiency in reading at any time during the school year shall be notified in writing of the student's reading deficiency.

The Board hereby directs the Superintendent or designee to assist schools with providing written notification to the parent(s)/guardian(s) of any student who has not met grade-level proficiency.

The initial notification must include the following:

1. A statement that his or her student has been identified as having a deficiency in reading and a reading improvement plan will be established by the teacher, principal, other applicable school personnel and the parent(s)/guardian(s);
2. A description of the current services that are provided to the student; and
3. A description of the available reading intervention and supplemental instructional services and supports that could be provided to the student that are designed to address the identified areas of reading deficiency.

Following development of the plan, the parent(s)/guardian(s) will be provided with:

1. A description of the reading intervention and supplemental instructional services and support that will be provided to the student that are designed to address the identified areas of reading deficiency; and
2. Strategies for parent(s)/guardian(s) to use at home in helping their student to succeed in reading.

At the conclusion of each school year, or earlier if it has been determined that the student is proficient and is no longer in need of intervention, the parent(s)/guardian(s) will be updated on the student's progress, including any recommendation for placement.

Student Records

605.0 STUDENT LEARNING PLANS

605.1 - Middle School/Junior High School Students

No later than the end of Grade eight (8) all students will develop parent-approved student learning plans for their high school and post-high school options. The learning plan will be developed by students and parents or guardians with advice and recommendation from school personnel. It will be reviewed annually and may be revised at any time. The purpose of a parent-approved student learning plan is to outline a course of study and learning activities for students to become contributing members of society. A student learning plan describes, at a minimum, the list of courses and learning activities in which the student will engage while working toward meeting the district's graduation standards. The school district will have met its obligation for parental involvement if it makes a good faith effort to notify the parent or guardian of the responsibility for the development and approval of the learning plan. A learning plan will not be required if the parent or guardian requests, in writing, that no learning plan be developed.

605.4 Parent and Family Engagement

District Policy Development

The District may receive Title I funds only if it conducts outreach consistent with federal law to all parents and family members and implements programs, activities, and procedures for the involvement of parents and family members in programs assisted under Title I. Such programs, activities, and procedures shall be planned and implemented following meaningful consultation with the parents of participating children.

The District shall develop jointly with, agree on with, and distribute to, parents and family members of participating children a written parent and family engagement policy. The policy will establish the District's expectations and objectives for meaningful parent and family involvement, and specifically describe how the District will:

1. **Demonstrate Joint Development of Engagement Plan:** The District shall involve parents and family members in jointly developing the District's Plan; and
2. **Coordinate Assistance and Support:** The District shall provide the coordination, technical assistance, and other support necessary to assist and build the capacity of all participating schools within the District in planning and implementing effective parent and family involvement activities to improve student academic achievement and school performance, which may include meaningful consultation with employers, business leaders, and philanthropic organizations, or individuals with expertise in effectively engaging parents and family members in education; and
3. **Coordinate with Other Programs:** The District shall coordinate and integrate its parent and family engagement strategies to the extent feasible and appropriate, with the District's other relevant federal, state, and local programs; and
4. **Conduct Annual Program Evaluation:** The District shall conduct, with the meaningful involvement of parents and family members, an annual evaluation of the content and effectiveness of its parent and family engagement policy in improving the academic quality of all its schools receiving Title I funds, including identification of:
 - A. The barriers to greater participation by parents in improvement plan activities (with particular attention paid to parents who are economically disadvantaged, are disabled, have limited English proficiency, have limited literacy, or are of any racial or ethnic minority background);
 - B. The needs of parents and family members to assist with the learning of their children, including engaging with school personnel and teachers; and
 - C. The strategies that will be implemented to support successful school and family interactions.

5. **Implement Evaluation Findings:** The District shall use the findings of the evaluation performed pursuant to Paragraph 4, above, to design evidence-based strategies for more effective parental involvement, and to revise, if necessary, the District's parent and family engagement policy described herein; and
6. **Establish a Parent Advisory Board:** The District shall involve parents in the activities of the schools receiving Title I funds, which may include establishing a parent advisory board comprised of a sufficient number and representative group of parents or family members served by the District to adequately represent the needs of the population served by the District for the purpose of developing, revising, and reviewing the District's Parent and Family Engagement Policy.

School-Level Policy Development

Each Title I school shall jointly develop with, and distribute to, parents and family members of participating children a written parent and family engagement policy, agreed on by such parents, that shall describe the means for carrying out the requirements of paragraphs 1 through 4 below. Parents shall be notified of the policy in an understandable and uniform format and, to the extent practicable, provided in a language the parents can understand. Such policy shall be made available to the local community and updated periodically to meet the changing needs of parents and the school. In the event a school has an existing parent and family engagement policy that applies to all parents and family members, that school may amend its policy, if necessary, to meet the requirements of this policy. Similarly, if the District has an existing district-level parent and family engagement policy that applies to all parents and family members in all schools served by the District, it may amend that policy, if necessary, to meet the requirements of this policy.

1. **Parental Involvement:** All District schools receiving Title I funds shall:

2. **School-Parent Compact to Achieve High Student Academic Achievement:** As a component of the school-level parent and family engagement policy developed under this policy, each school shall jointly develop with the parents of Title I children a school-parent compact that describes how parents, the entire school staff, and students will share the responsibility for improved student academic achievement and identify the means by which the school and parents will build and develop a partnership to help children achieve the challenging state academic standards. Such compact shall:
- A.  - A.  - I. May train parents to enhance the involvement of other parents; and
 - J. May arrange school meetings at a variety of times, or conduct in-home conferences between teachers or other educators, who work directly with participating children, with parents who are unable to attend such conferences at school, in order to maximize parental involvement and participation; and
 - K. May adopt and implement model approaches to improving parental involvement; and
 - L. May establish a districtwide parent advisory council to provide advice on all matters related to parental involvement in programs supported under Title I; and
 - M. May develop appropriate roles for community-based organizations and businesses in parent involvement activities;
 - N. Shall provide such other reasonable support for parental involvement activities under this section as parents may request; and
 - O. Shall inform parents and organizations of the existence of the program.
2. **Accessibility of Information for Parents:** In carrying out the parent and family engagement requirements of this policy, the District and participating schools, to the extent practicable, shall provide opportunities for the informed participation of parents and family members (including parents and family members who have limited English proficiency, parents and family members with disabilities, and parents and family members of migratory children), including providing information and school reports in a format and, to the extent practicable, in a language such parents understand.

609.4 – Alternate Graduation Plan

1. Students who do not demonstrate grade level mastery on the ISAT at the end of 8th grade are targeted for intervention in the areas of Math and English by being placed in a remediation, ISAT Math and/or ISAT English class as well as their regular Math and English classes in the Fall of their 9th grade year. ISAT Math and ISAT English are remediation classes designed to help students acquire the necessary skills to master their ISAT tests by the end of their sophomore year.
2. Students who do not master their ISAT tests by the end of their sophomore year are placed into a PLATO-based ISAT preparation program in their junior year. The junior students have four opportunities to pass their ISAT exams during their junior year at which time they may exit from the ISAT preparation program.
3. Any student who has not reached proficiency on the ISAT test by the beginning of his/her senior year will again be placed in a PLATO-based ISAT preparation program. At this

time he/she may appeal to the District board for an alternative measure to demonstrate proficiency of the Idaho State Standards. The student will be required to present documentation that he/she has taken advantage of the opportunity to build his/her skills through the PLATO program. He/she will also be required to take the ISAT each time that it is offered through his/her senior year.

4. A student who is approved by the board of trustees for alternate assessment will be required to submit documentation of PLATO objectives mastered for any subject area in which the student has not reached proficiency as measured on the ISAT. This documentation will demonstrate that at least 75% of the state standards for that subject area have been mastered at the 10th grade level, as completed in the PLATO learning program.

Rationale

The RIT score required for proficiency on the ISAT is approximately 75% of the highest possible RIT score for each subject area.

The PLATO curriculum has been aligned to Idaho state standards; it has undergone determination of validity and reliability; it includes instruction, assessment, and recordkeeping components; and it is based 100% on academic proficiency and performance.

Alternate Graduation Mechanism

Description and explanation of the alternate graduation plan measures:

The measure will be documentation that 75% of the state standards have been mastered in the PLATO-based ISAT preparation program at the tenth grade level.

Evidence that the measure is aligned to a minimum of tenth grade standards:
PLATO has already aligned its curriculum to Idaho's standards at the 10th grade level.

Evidence that the measure is aligned to the reading and math content standards:
PLATO has already aligned its math and reading curriculum to Idaho's content standards.

Evidence that the measure is valid and reliable:
Documented research supports the reliability and validity of the PLATO program.

How the measure will be consistently updated to ensure validity, reliability, and alignment:
PLATO upgrades and updates will be utilized to keep the program up-to-date.

When the option will be available to students:
Students will appeal for an alternate measure in the fall of their senior year.

How district will encourage maximum number of students to participate in and pass the ISAT:
The district will begin remediation in the fall of the ninth grade for any student who has not scored proficient on his/her ISAT test. Any student who has not scored proficient on the ISAT exam by the spring of his/her sophomore year will begin the PLATO-based ISAT

preparation program in the fall of his/her junior year. Only students who document that they have part in all possible ISAT testing periods and have made maximum effort to prepare themselves through the PLATO-based ISAT preparation program will be allowed to graduate through the alternative measure.

The primary goal will be for students to fully utilize the PLATO-based ISAT preparation program in order to reach proficiency on the ISAT. The motivation to continue trying to pass the ISAT will be the prospect of leaving the preparation program as soon as the ISAT is passed. The other motivation provided by this proposal lies in the student being able to apply the work done in the PLATO-based ISAT preparation program for passing the ISAT, toward the alternated graduation mechanism only if needed. Thus, a student who works hard in PLATO and masters 75% of the objectives-but is not able to pass the ISAT-is still rewarded by being able to apply those objectives to the alternate graduation portfolio. We believe this will motivate students to work hard in PLATO to master the objectives, which will hopefully result in their passing the ISAT; and will also discourage students from giving up and dropping out before the end of the senior year.

609.5 Education of Homeless Children

It is the policy of the District to ensure that:

1. Each child of a homeless individual and each homeless child has equal access to the same free, appropriate public education, including a public preschool education, as provided to other students;
2. Homelessness does not in any way separate homeless students from the mainstream school environment; and
3. Homeless children and youths have access to the education and other services that such children and youths need to ensure that such children and youths have an opportunity to meet the same challenging state academic standards to which all students are held.

The Board of Trustees directs all District schools to admit children who are homeless regardless of residence and irrespective of whether the homeless child is able to produce records normally required for enrollment. The Board shall not enter into an out-of-District attendance and tuition agreement with another district for a homeless child.

All schools and employees of the District shall work to ensure that children and youth who are homeless are free from discrimination, segregation, and harassment. The District will also strive to prevent stigma against students who are homeless.

**IDAHO STATE DEPARTMENT OF EDUCATION
DISPUTE RESOLUTION PROCESS**

In compliance with the McKinney-Vento Homeless Assistance Act, Title VII, Subtitle B, reauthorized by the No Child Left Behind Act, and Section 33-1404, Idaho Code, the following procedures are established to promptly resolve disputes regarding the educational placement of students experiencing homelessness, and will be implemented in all school districts in the State, including charter schools.

A student is considered homeless under the McKinney-Vento Homeless Assistance Act if the student lacks a fixed, regular, and adequate nighttime residence.

School enrollment of a homeless child or youth will be determined based on the best interest of the student and the request of the parent, guardian, or unaccompanied youth. To the extent feasible, the student will be immediately enrolled or continue enrollment in the school of origin, which is defined as the school last attended by the student when permanently housed or the last school in which the student was enrolled.

If a dispute arises over the educational placement of a homeless student or if a school or school district denies a child, youth, or unaccompanied youth homeless status, the homeless child or youth will be immediately enrolled in the requested school until the dispute is resolved. The student will also have the right to continue all appropriate educational services, transportation, free meals, and Title I, Part A services while the dispute is pending.

A written explanation of the decision to deny enrollment and notice of the right to appeal will be promptly provided to the parent, guardian, or unaccompanied youth. Such notice will be in language the parent, guardian, or unaccompanied youth can understand and will include a summary of the dispute resolution process and an appeal form (see Notification of Enrollment Decision and Appeal of Enrollment Decision).

In addition, the school district will promptly refer the parent, guardian, or unaccompanied youth to the local homeless education liaison who will carry out the dispute resolution process within ten (10) business days. The local liaison will advise the parent, guardian, or unaccompanied youth of the student's rights, assist in and carry out the dispute resolution process, and ensure the unaccompanied youths are provided equal access to the dispute resolution process.

If an agreement cannot be reached between the parties regarding the educational placement or enrollment status of the student, the school district will promptly seek further assistance from the

State Coordinator for Homeless Education who will review and determine within ten (10) business days how the student's best interests will be served. All parties will be expeditiously informed of the State's determination in writing and such decision will constitute final resolution of the dispute.

610.0 STUDENT PUBLICATIONS

610.1 - Publications Oversight

As part of its curricular offerings, School District #342 may offer opportunities for students to participate in activities such as student newspaper, yearbook, and other similar curricular-related activities.

Journalistic experience in a school setting should be calculated to develop the background of skills and understanding which will equip a student for the responsibilities of the free press in our society. Students must recognize, however, that a school-sponsored newspaper is unique and different from other newspapers in at least four ways.

1. It is an instructive tool in addition to a means of student self-expression.
2. It is read not just by the intended audience of fellow students, but by parents and many citizens outside the school.
3. It is partially supported by tax funds.
4. It is an influence on the public relations of the entire district since content is read by many not simply as expressions of individual students, but as expressions representative of the entire student body and approved by the administration.

The concept of "freedom of the press" under the First Amendment has application with regard to school-sponsored publications. However, the United States Supreme Court has established that school districts may exercise editorial control over the style and content of school-sponsored newspapers without violating the First Amendment. All school-sponsored publications shall comply with the ethics and rules of responsible journalism. Text that is libelous, obscene, vulgar, lewd, invades the privacy of others, conflicts with the basic educational mission of the school, is socially inappropriate, is inappropriate due to the maturity of the students, or is materially disruptive to the educational process will not be tolerated.

The District recognizes that there are valid and necessary reasons to exercise such prepublication editorial control and to impose reasonable restrictions on student speech in school-sponsored publications. Thus, the following guidelines apply to all school-sponsored student publications.

- A. School-sponsored publications are those publications, including, but not limited to, school newspapers, yearbooks, and athletic programs, which may fairly be characterized as part of the District's curriculum, whether or not they occur in a traditional classroom setting. Generally they include student publications which are supervised by a faculty member and are designed to impart particular knowledge or skills to student participants and audiences. However, they also may include publications which students, parents, and members of the public reasonably perceive to be sponsored or approved by the District. The author's name will accompany personal opinions and editorial statements. An opportunity for the expression of differing opinions from those published/produced will be provided within the same media.
- B. The District will not restrict student freedom of expression when such expression is within the rules of responsible journalism and is consistent with the four factors outlined below. The principal of each school shall meet with the publication advisor, student editors, and student writers to establish guidelines for achieving a maximum of student freedom of expression subject to the limitations set forth in this policy.
 1. All publications must be reviewed and approved by the building principal prior to distribution. The building principal shall have the authority to determine the appropriateness of any particular item for publication. In exercising such authority, material will not be considered suitable for publication that is ungrammatical, inadequately researched, obscene, defamatory, advocates racial or religious prejudice, invades the privacy rights of others, is unsuitable for the audiences for which the publication is intended, contributes to the disruption or interruption of the educational process or the operation of the school, or otherwise is contrary to District policy or applicable federal or state law. The school principal may also exclude material that may serve to associate the District with any position other than neutrality on matters of political controversy.
 2. The principal of each secondary school shall have the authority to determine whether advertising will be accepted for inclusion in school-sponsored student publications. The District has an important interest in avoiding the impression that it has endorsed a viewpoint at variance with its educational mission. Consequently, if advertising is accepted, each school principal shall have authority to exclude certain categories of advertising. For example, drug, drug paraphernalia, or alcoholic beverage advertisements or any other advertisements that may be viewed as

encouraging action that might endanger the health and welfare of students may be excluded. Similarly, advertisements which are factually inaccurate, defamatory, obscene, advocate racial or religious prejudice, contain either explicit or implicit sexual content or overtones, or are of poor production quality may be excluded. The school principal may also exclude advertising that may serve to associate the District with any position other than neutrality on matters of political controversy.

3. In the event that the building principal determines that material is not suitable for publication, students may appeal such decision to the Superintendent or his/her designee. The decision of the Superintendent or his/her designee will be final.

4. Copies of each issue of the student publication shall be sent to the Superintendent and each member of the Board of Trustees.

611.0 CURRICULUM RENEWAL PROCESS

611.1 - Statement of Belief

It is the belief of the Board of Trustees of School District #342 that the curriculum offered to students should be viewed as a “work in progress”. As such, revisions to the curriculum that provide more relevant learning experiences for the students of this school district should be viewed in a favorable light. It is incumbent upon the administration and teaching staff to work together in a harmonious manner to bring forth those changes that will be beneficial to our students.

611.2 - Monitoring the District Curriculum

The Board believes that there are several effective methods of monitoring the district curriculum. Among others, there should be:

- a continual evaluation of courses and activities offered to students through both formal and informal methods.

- an annual survey of one, three, and five year graduates of district schools to ascertain the effectiveness of programs the students enrolled in while in the district's schools.
- a constant dialogue with members of the business community to ensure that graduates of district schools who enter the workforce have the necessary skills to succeed.

611.3 - Curricular Changes

The Board of Trustees believes that changes in the district's curricular offerings can best be made when members of the administration and teaching staff work together in a spirit of cooperation with the focus being what is best for the students who attend our schools. The Board encourages the formation of a district-wide curriculum committee whose job it is to oversee the process whereby proposed curricular changes may be brought before the Board. The Board directs the superintendent to form such a committee with the majority of members to be active members of the teaching staff of the school district. The committee is to file an annual status report with the Board on the effectiveness of the district's curriculum, the results of student surveys, the results of any formal surveys of the business community, and any recommendations for change in district curriculum.

- The initial review of the written complaint will be completed by the teacher and building principal with the principal having the authority to grant or deny the request.

613.0 HEALTH ENHANCEMENT EDUCATION

Health, family life and sex education, including information about parts of the body, reproduction and related topics, shall be included in the instructional program as appropriate to the grade level and course of study.

The instructional approach shall be developed after consultation with parents and other community representatives. Parents may ask to review the materials to be used. Any parent/guardian may have their child excused from any planned instruction in sex education by filing a written request to the board. Alternative educational endeavors will be provided for those students who are excused.

The Board believes that HIV/AIDS instruction is most effective when integrated into a comprehensive health education program. Instruction shall be developmentally appropriate to the grade level of the students and shall occur in a systematic manner. The Board particularly desires that students receive proper education about HIV before they reach the age when they may adopt behaviors that put them at risk of contracting the disease.

In order for education about HIV to be most effective, the Superintendent shall require that faculty members who present this instruction receive continuing in-service training that includes appropriate teaching strategies and techniques. Other staff members not involved in direct instruction but who have contact with students shall receive basic information about HIV/AIDS and instruction in the use of universal precautions when dealing with body fluids.

In accordance with Board policy, parents shall have an opportunity to review the HIV education program before it is presented to students.

Students shall receive education regarding the use of alcohol, tobacco and drugs. The Superintendent, or his/her designee, shall develop curriculum for use in health education that provides instruction to students in the areas of prevention, education, treatment, rehabilitation and legal consequences of alcohol, tobacco and drug use.

620.1 - Extracurricular and Co-Curricular Activity Suspension

Extracurricular or Co-curricular activity Suspension

The Board believes that the safety and welfare of other students may be adversely affected when students who are involved in extracurricular or co-curricular activities commit major infractions or repeated minor infractions at school or during school activities, and/or are involved in criminal conduct or drug use in any location.

At the beginning of each semester, teachers or coaches of co-curricular courses will identify for students how participation in the co-curricular activity impacts their course grade. Co-curricular students who are suspended as a result of this policy will have the co-curricular course grade affected only if the reason for the suspension was related to

course work or course expectations. Students who miss a co-curricular activity because of a suspension may ask to do, or be required to do, alternative assignments or special projects to make up the missed activity.

I. Activity Suspension as a Result of a School Suspension

A student will be immediately suspended from all extracurricular and co-curricular activities when he/she receives a suspension (not including an in-school detention) from school for any reason.

Consequences:

1. The activity suspension is automatic, is for the duration of the school suspension, and runs concurrent with the school suspension.
2. This type of activity suspension cannot be appealed.

II. Activity Suspension for Repeated Minor Infractions or a Major Infraction During an Activity

A student may be suspended from an extracurricular or co-curricular activity when he/she commits a third minor infraction, or a major infraction, while engaged in an extracurricular or co-curricular activity on any school premises or at any school-sponsored activity, regardless of location. The coach or advisor will recommend suspension to the Principal.

Consequences:

1. The incident will be reviewed pursuant to the Informal Hearing Process at Section V of this policy.
2. If the evidence supports the recommendation, the student may be given an activity suspension for a period of time up to and including the remainder of the season or duration of the activity in that scholastic year for that activity only.
3. If the activity suspension exceeds nine (9) school days, the parent/guardian may request an appeal as outlined in the Appeal Process at Section VI of this policy.

III. Activity Suspension for Criminal Conduct or Drug Use in Any Location During the Scholastic Year

A student may be suspended from extracurricular and co-curricular activities when he/she has been arrested or it reasonably appears to the District that he/she has violated criminal law, other than infractions or minor traffic violations; or has been involved with drug paraphernalia, controlled substances, or drugs, including alcohol or tobacco, **in any location, either on or off campus**, during the scholastic year, in any of the following ways: attempting to secure or purchase; using or having reasonable suspicion of having used; possession; intending or attempting to sell or

distribute; selling or giving away; or being knowingly present when any of the above are used, possessed, or consumed.

Consequences:

A. Knowingly Present

1. First Violation: When a student violates the “knowingly present” prohibition of this policy for the first time during a scholastic year, the school resource officer (“SRO”), principal, or athletic director:
 - ✓ will hold a conference with the student;
 - ✓ will notify the student’s parent/guardian and the student of the violation;
 - ✓ may arrange a conference with the parent/guardian and the student; and
 - ✓ will inform the student and parent/guardian of consequences for future violations of the policy.
2. Second Violation: When a student violates this “knowingly present” prohibition of this policy for the second time during a scholastic year, he/she is subject to the consequences outlined below in part III.B “Other Violations” of the policy.

B. Other Violations

1. The incident will be reviewed pursuant to the Informal Hearing Process in Section V of this policy. If the evidence supports the accusation, the student may be suspended from all extracurricular and co-curricular events for a period of twenty-one (21) calendar days.
2. The suspension will be reduced to a fourteen (14) calendar day period if:
 - a. In the case of criminal conduct, the student receives counseling which has been approved by a school counselor.
 - b. In the case of drug, alcohol, or tobacco use, the student agrees to and completes
 - 1) A drug/alcohol/tobacco assessment provided by the school (no cost) or the community (the family incurs the cost); and/or
 - 2) Drug/alcohol/tobacco education group, provided or facilitated by the school, and/or the community.
3. If no event is scheduled during the period of the suspension, the student will be withheld from the next scheduled event.
4. If the student notifies school personnel (self-reports) concerning his/her criminal conduct or drug use prior to the personnel’s knowledge of the incident(s), the principal or athletic director may reduce the length of the activity suspension.
5. On the occasion of a subsequent infraction during a scholastic year, and if the evident supports the accusation, the principal or athletic director will bar the student from any form of extracurricular or co-curricular activity for the balance of the scholastic year.
6. All students who receive an activity suspension for criminal conduct or drug use shall be reported to the Superintendent or designee and, if applicable, to the appropriate law enforcement agency.
7. The parent/guardian may request an appeal as outlined in the Appeal Process at Section VII of this policy, with either a first or second offense.

IV. Infractions Which Occur in Out-of-School Trips

During an out-of-school trip, if the authorized person in charge of the activity determines that a student should be sent home early because of criminal conduct, drug use or a major infraction, the authorized person will notify the parent/guardian, and ask him/her to take charge of the return of the student. The parent/guardian will assume any expenses incurred for the return of the student.

V. Informal Hearing Process

Prior to giving an activity suspension to a student, the principal or athletic director shall grant the student an informal hearing on the reasons for the activity suspension and the opportunity to challenge those reasons unless an emergency activity suspension is necessary. If an emergency activity suspension is necessary, an informal hearing will be held as soon as possible after the emergency ceases to exist.

VI. Student travel to or from an extracurricular or co-curricular activity

If a student causes a disruption or hazard on the bus, a hearing will be held with the principal, driver, instructor\coach\ or adult sponsor, parent/guardian and student. The driver, instructor\coach\ or adult sponsor, parent/guardian and the student will have the opportunity to share with the principal their perceptions of the problem. If the principal finds that there has been an infraction of bus rules, he will take the following action:

1. On the first infraction, the student will be warned that following any further infraction he/she will be declared ineligible for transportation to the extracurricular or co-curricular activities for one event.
2. On the second infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activity for two events.
3. On the third infraction during a semester, the student will be declared ineligible for transportation to the extracurricular or co-curricular activities for the remainder of the semester.

Based on the severity of the problem as it relates to respect and safety for others, the principal may bypass step #1 and/or step #2 above and immediately declare the student ineligible for transportation for two weeks or for the remainder of the semester.

VI. Appeal Process

1. This appeal process may be used by students and their parent/guardian only in those instances where an activity suspension or transportation to an extracurricular or co-curricular activities exceeds nine (9) school days.
2. The parent/guardian must request an appeal in writing within two (2) school days from the notification of the activity suspension decision.
3. The Superintendent will appoint a three-member panel composed of certificated staff members who have not been involved in the disciplinary action in question. The hearing panel will notify the student and the parent/guardian of the date, location, and time of the hearing; the student will have an opportunity to present additional evidence regarding the circumstances of the suspension or reasons to reduce the length thereof. The appeal must be scheduled within five (5) school days of the request.
4. If the panel determines that the evidence reviewed at the appeal supports the suspension, the suspension of the student from extracurricular and/or co-curricular activities shall be continued.

627.0 CONTROVERSIAL ISSUES

The District shall offer courses of study which will afford learning experiences appropriate to the level of student understanding. The instructional program shall respect the right of students to face issues, to have free access to information, to study under teachers in situations free from prejudice, and to form, hold, and express their own opinions without personal prejudice or discrimination.

The Board recognizes the need for the teacher to have the freedom to discuss and teach subjects and issues which may be controversial. Such subjects and issues may include but not necessarily be limited to (1) politics, (2) science, (3) health and sex education and (4) values and ethics.

Teachers shall guide discussions and procedures with thoroughness and objectivity to acquaint students with the need to recognize opposing viewpoints, importance of fact, value of good judgment, and the virtue of respect for conflicting opinions.

The Board encourages and supports the concept of academic freedom, recognizing it as a necessary condition to aid in maintaining an environment conducive to learning and the free exchange of ideas and information.

The Board also believes that academic freedom carries with it a responsibility that is shaped by the basic ideals, goals and institutions of the local community. These standards are expressed via the goals and objectives of the adopted curriculum, by the adopted textbooks, by school board policy, and by the school's mission statement.

In the study or discussion of controversial issues or materials, however, the Board directs the teaching staff to take into account the following criteria:

1. relative maturity of students;
2. District philosophy of education;
3. community standards, morals and values;
4. the necessity for a balanced presentation; and
5. the necessity to seek prior administrative counsel and guidance in such matters.

As a consequence of its responsibility to guarantee academic freedom to both students and teachers, the Board expects that:

1. all classroom studies will be curriculum-related, objective, and impartial;
2. teachers will create and maintain an atmosphere of open-mindedness and tolerance, and that no one idea or viewpoint should necessarily prevail;
3. teachers will not attempt, directly or indirectly, to limit or control students' judgment concerning any issue, but will make certain that full and fair consideration is given to the subject and that facts are carefully examined as to their accuracy and interpretation;
4. teachers will exercise professional judgment in determining the appropriateness of the issue to the curriculum and to the age and grade level of the students.

To this end:

1. the teacher shall be free to choose supplemental materials to support and enhance the regular classroom curriculum except in sex education instruction as outlined in item four of this section. To encourage the free flow of information and enhance student creativity, unplanned issues may be brought up in the classroom and briefly discussed.
2. the school shall provide for parents to have their child excused from a topic which may be contrary to their religious or moral values. This shall be done in writing by the parent and include an explanation of the conflict. The student may also request to be excused if the student personally finds the topic to be contrary to their religious or moral values. The student must explain in writing as to the nature of the conflict. The teacher will provide an alternative assignment if the request is approved by the teacher and principal.
3. the teacher shall notify parents when especially controversial issues may be discussed and that they may have their child excused if family religious or moral values so dictate. The teacher should have the principal view questionable materials, etc.
4. the School Board directs that a philosophy of abstinence shall be a part of and the underlying principal in all sex education instruction. However, it is recognized that this alone may not prevent pregnancies and sexually transmitted disease and therefore the School Board allows for instruction in sex education including AIDS awareness, sexually transmitted diseases, birth control, and general human sexuality. In all cases the known facts will be taught, not the opinions or moral judgment of the instructor. This does

not preclude giving impartial view points on both sides of issues such as the right to an abortion or on the use of birth control methods.

5. when speakers are to be used, the principal must always give approval as outlined in the School Board Policy on "Controversial Speakers".

School library and classroom library books are provided primarily for use by District students and staff. Library books may be checked out by either students or staff. Individuals who check out books are responsible for the care and timely return of those materials. The building principal may assess fines for damaged or unreturned books.

The Culdesac School District Media and Technology Center has two major purposes:

- To support and enrich the curriculum
- To provide for personal interests and recreational reading

The Board of Trustees hereby states that it is the policy of Culdesac School District to provide a wide range of instructional materials in its media centers in all levels of difficulty, with diversity of appeal, and the presentation of different points of view. The primary objective of the District's library is implementing and supporting the educational program in the schools. It is the objective of this library to provide a wide range of materials on all appropriate levels of difficulty, with diversity of appeal and the presentation of different points of view.

The provision of a wide variety of library materials at all reading levels supports the District's basic principle that the school in a free society assists all students to develop their talents fully so that they become capable of contributing to the further good of that society.

Selection of materials is made on the basis of the following:

- Book reviews and other professional tools such as standard catalogs and bibliographies. Book list, Library School Journal, State Department of Education book list.
